

BenefactorCloud

Grant Management Software

Gallery Partnership have been the trusted choice for grant organisations for over 25 years.

- Trusted by 80+ Uk grant organisations
- Prioritising building long-term client relationships that last

BenefactorCloud

The most cost-effective grant management solution provider.

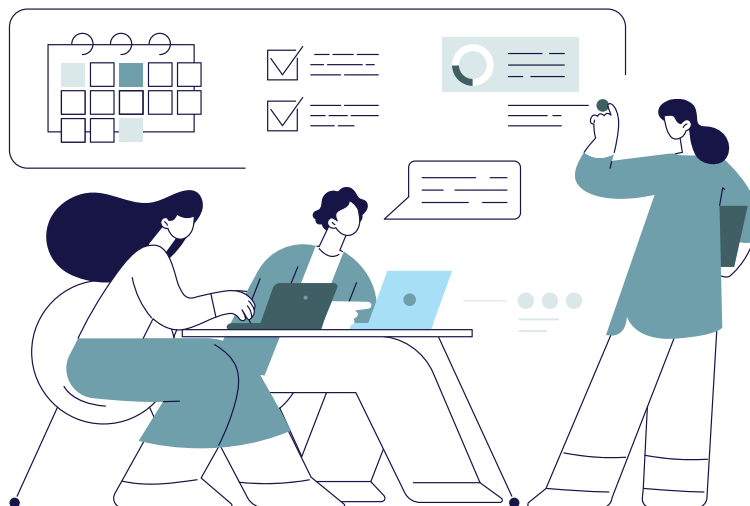

“Choosing a grant system can be overwhelming, given the numerous options available BenefactorCloud strikes the perfect balance between functionality and affordability, avoiding the extremes of basic, low cost solutions and high-end, expensive software. Gallery Partnership’s willingness to incorporate our suggestions for additional features and improvements over time is particularly valuable.”

LOUISE PARKIN - Head of Grants, The Seafarers’ Charity

The most cost-effective grant management solution provider.

“With Gallery Partnership, it was much more a sense of working together to find the right solution, rather than just providing a generic product.”

SALLY BURTLES - Director, The Lister institute of Preventative Medicine Consultative

Exceptional customer support.

- Personalised training
- Ongoing support and assistance even after you are up and running

“The grants team at Gallery Partnership has been incredibly helpful, going above and beyond to assist us in implementing this new system. They even worked closely with our IT team to expedite the process and ensure we met our go-live deadline.”

NICOLA DONELLY - Outdoor Recreation Officer, Southwark Council

Save time and effort managing your grant process.

- User-friendly customisable interface
- Budget reports
- Monitoring of impacts and outcomes

“I’ve been really impressed with the software’s customisation capabilities. Unlike our previous system, BenefactorCloud allows us to modify work flows to our specific needs. We had the opportunity to design the work flow collaboratively with Gallery Partnership ensuring the system is tailored to each department’s needs.”

NICOLA DONELLY - Outdoor Recreation Officer, Southwark Council
